

### Presence in Europe and in the world

(Export sales to countries 2015)

### Metal-sheet processing

- CNC Punching / Laser Cutting
- Deburring, Straightening, Vibratory Grinding
- CNC Bending
- Insertion, Thread Cutting
- Welding / Bonding (131,135,141,21,783,786)
- Washing, Painting, Screen Printing

### Powder coating Wet painting

- We work with chemicals on water-and solvent-based
- The pretreatment tunnel works with a spray technology, 1400x2500x7000mm
- Pretreatment: alkaline degreasing, acidic pickling, conversion layer
- In our cabin for wet painting the various parts can be coated, also heavy over 500 kg body for air conditioners

### Cable assemblies processing

- Complicated wiring harnesses (special, from very small quantities to high volume)
- Ribbon cable (2-80 pins)
- Simple cable bridges (0.11 - 300 mm<sup>2</sup>)
- Coaxial cable
- Complete wiring enclosures and devices

### Electrical switchgear

- Primary and secondary switchgear / distributor-board
- Electrical main systems / Electrical main panels
- Units from all major manufacturers
- Installation of electrical switchgear

### Quality Management

VIVBER Kft. is committed to offering its customers the highest levels of quality in its production and services. The company VIVBER Kft. integrated standards of quality for its workers, to warrant an efficient quality-control system, which includes full-time monitoring of the production processes, expert and experienced personnel, in order to maintain the high quality service which we ensure.
